

ALUMNI TALK - EVEN SEM (2026)

Subject: How the Cloud Powers Everything You Use Daily

Expert Name: Mr. Vishruth P S Reddy

Audience: 6th-Semester Students

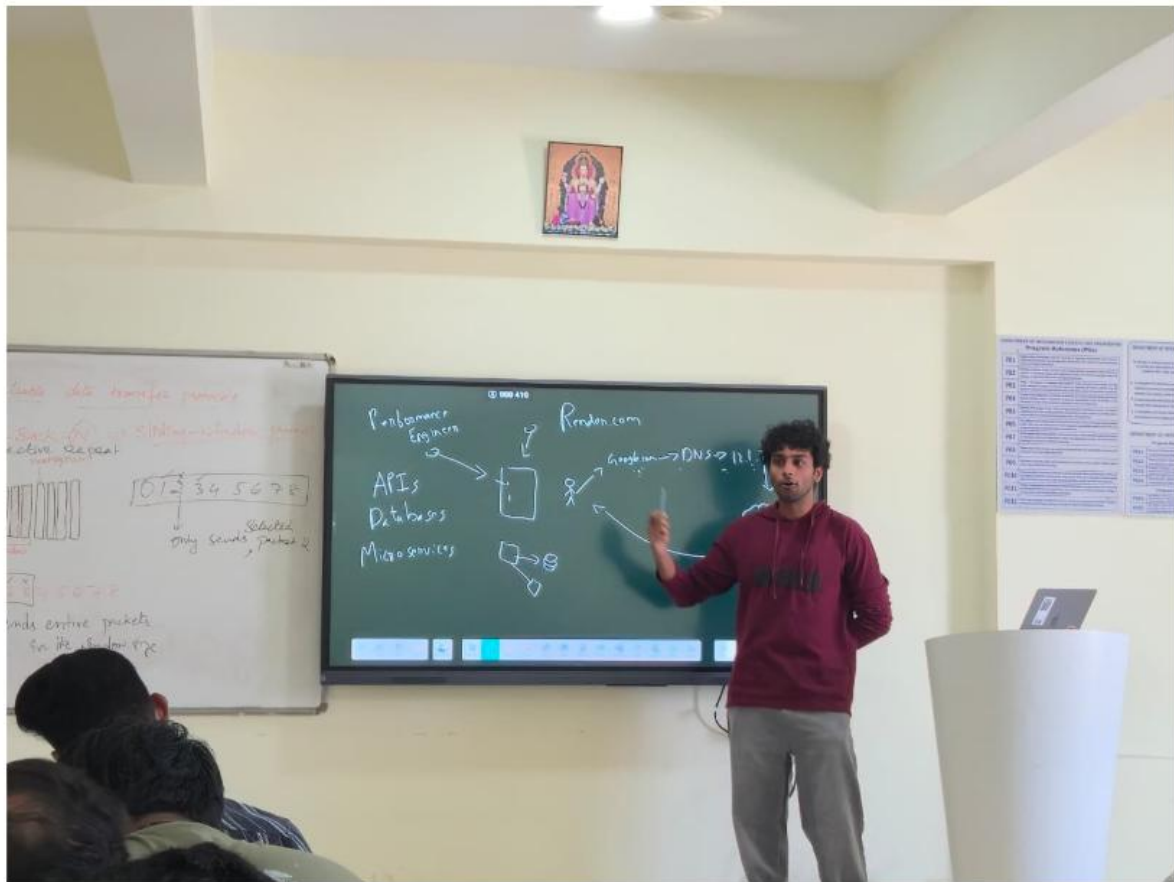

Date: 26-03-2026, 10:00A.M-11:00 A.M

The Department of Information Science and Engineering organised an Alumni Talk titled “How the Cloud Powers Everything You Use Daily” for the 6th-semester students on 26th March 2026. The session was conducted in offline mode under the guidance of Dr. Vandana C. P., Head of the Department.

The department invited Mr. Vishruth P. S. Reddy as the expert speaker for the event. He is currently working as SDE-1 at Jungle Games. During the session, Mr. Reddy shared insights into cloud computing as an emerging technology and explained how it plays a critical role in powering everyday digital services.

Various sessions throughout the Programme

NEW HORIZON COLLEGE OF ENGINEERING

Topics Covered

- Role of Cloud Computing in Daily Activities
- Cloud Usage in Everyday Applications
- Cloud Technologies
- Virtualisation

Overview of Cloud Computing

Cloud Computing has become an integral yet often unnoticed part of modern life. Everyday activities such as sending emails, streaming videos, using social media platforms, and performing online banking rely heavily on cloud-based infrastructure. Cloud Computing refers to the delivery of essential computing services including servers, storage, databases, networking, and software over the internet. This model allows users to access data and applications anytime and from anywhere with ease.

Future of Cloud Computing

The speaker highlighted that cloud computing continues to evolve with the integration of advanced technologies such as Artificial Intelligence (AI), Internet of Things (IoT), and edge computing. These developments are expected to enhance performance, intelligence, and efficiency, making cloud services more deeply embedded in daily life and future technologies.

Challenges of Cloud Computing

The session also addressed some of the key challenges associated with Cloud Computing:

- **Security Risks:** Issues related to data breaches and privacy concerns
- **Internet Dependency:** The need for reliable and stable internet connectivity
- **Downtime Issues:** Service outages that may temporarily affect accessibility

Question and Answer Session

An interactive question-and-answer session followed the talk, where the speaker responded to student queries related to:

1. The evolution of Cloud Computing
2. Major Cloud Service Providers

Outcome of the Programme

The programme successfully enhanced students' understanding of Cloud Computing and its future scope. Participants gained valuable insights into the practical applications, advancements, and career opportunities associated with cloud technologies.
